SUMMARY

Experienced Frontend Developer specializing in Next.js, Tailwind CSS, and TypeScript. Proven track record of building scalable, high-performance web applications with a strong eye for responsive design and user experience. Comfortable working across the stack with MongoDB, Node.js, and Express to deliver robust, end-to-end solutions. Committed to clean architecture, performance optimization, and driving impactful digital experiences.

EXPERIENCE

Frontend Engineer Intern, Netwalkers NG, Lagos State, Nigeria

Oct 2024 — Dec 2024

- Agile Team Delivery:** Collaborated in fast-paced Agile sprints, consistently delivering UI features with **100%** adherence to design specs and project goals.
- Responsive UI Engineering:** Designed and implemented adaptive interfaces, improving cross-device consistency and boosting user satisfaction by **15%**.
- Code Quality & Collaboration:** Contributed to daily stand-ups and peer reviews, sharpening expertise in HTML, CSS, JavaScript, and component-driven frameworks—resulting in a **5%** improvement in delivery speed within my short stay.

Fullstack Developer, Virograf, Ogun State, Nigeria

Dec 2023 — Present

- Responsive & Adaptive Design:** Developed fully responsive interfaces, delivering exceptional user experiences across all devices and screen sizes, achieving **98%** device compatibility.
- Performance & Accessibility Focused:** Led debugging and optimization efforts across client and server environments, significantly improving page load times and reducing submission errors by **40%**, while ensuring strong adherence to accessibility standards for a broader audience.
- Optimized User Journeys:** Meticulously crafted multi-step onboarding flows, significantly enhancing user progression and boosting completion rates by **15%**.

SKILLS

Technical : JavaScript, Nextjs, ReactJS, TypeScript, Express.js, Node.JS, MongoDB, Tailwind

Non-Technical : Problem Solving, Time Management, Leadership Skills, Commutations

PROJECTS

CBT platform (Desktop App), Inventors Community, [Link](#), Ogun State

Present

- Built a Dynamic Fullstack CBT platform with Nextjs and Firebase that allows users log in, take tests and get their results seamlessly
- Ensured state management for current question selection, enabling real-time UI updates without page reloads.
- Learned how to use email services to send candidates results to their email or any email of their choice

Hei whatsapp Chatbot, Hei, [Link](#), Ogun State

Apr 2025 — Present

- Developed and integrated a secure payment gateway for Hei WhatsApp Chatbot, ensuring smooth transaction processing and user data protection.
- Implemented WhatsApp chatbot flow integration, enhancing customer interaction and automating key communication touchpoints.

EDUCATION

The bells university of technology, Ota, Nigeria - Bachelor of Technology, Computer Science

Present
