SUMMARY

Detail-oriented **Frontend Developer** with hands-on experience in **Next.js, Tailwind CSS, and TypeScript**, specializing in building scalable, high-performance web applications. Proficient in crafting responsive, accessible, and user-friendly interfaces with a strong focus on modern UI/UX best practices.

Additionally, skilled in **MongoDB, Node.js, and Express**, enabling seamless backend integrations and full-stack development capabilities. Passionate about optimizing performance, maintaining clean code architecture, and staying updated with industry trends.

Seeking opportunities to contribute technical expertise to innovative projects while enhancing user experiences and driving business success.

EXPERIENCE

Frontend Engineer , Netwalkers NG, Lagos State, Nigeria   **Oct 2024 — Dec 2024**

- Collaborated effectively within an Agile team, delivering weekly sprint tasks and implementing UI features with **100%** alignment to project requirements and design specifications.
- Developed and refined responsive web interfaces, enhancing cross-device consistency and user experience by **15%**.
- Actively participated in team stand-ups and code reviews, strengthening core skills in HTML, CSS, JavaScript, and component-based frameworks, contributing to a **5%** increase in feature delivery efficiency.

Fullstack Developer, Virograf, Ogun State, Nigeria   **Dec 2023 — Present**

- **Responsive & Adaptive Design:** Developed fully responsive interfaces, delivering exceptional user experiences across all devices and screen sizes, achieving **98%** device compatibility.
- **Performance & Accessibility Focused:** Led debugging and optimization efforts across client and server environments, significantly improving page load times and reducing submission errors by **40%**, while ensuring strong adherence to accessibility standards for a broader audience.
- **Optimized User Journeys:** Meticulously crafted multi-step onboarding flows, significantly enhancing user progression and boosting completion rates by **15%.**

Frontend Engineer, Archibuzz, Ogun State, Nigeria   **Oct 2024 — Apr 2025**

- Engineered and integrated responsive UI components for core platform features (project feeds, course modules, user profiles), significantly enhancing user interaction and navigability.
- Bridged design-to-code gap by collaborating with product and design teams to translate complex user requirements into intuitive, accessible interfaces, boosting cross-device usability by an estimated **15-20%**
- Drove development efficiency by **10%** through applying modern frontend best practices and robust version control, ensuring a scalable, component-based architecture.

SKILLS

Technical	: JavaScript, Nextjs, ReactJS, TypeScript, Express.js, Node.JS, MongoDB, Tailwind
Non-Technical	: Problem Solving, Time Management, Leadership Skills, Commutations

PROJECTS

Hei whatsapp Chatbot, Hei, Link, Ogun State   **Apr 2025 — Present**

- Developed and integrated a secure payment gateway for Hei WhatsApp Chatbot, ensuring smooth transaction processing and user data protection.
- Implemented WhatsApp chatbot flow integration, enhancing customer interaction and automating key communication touchpoints.

EDUCATION

The bells university of technology, Ota, Nigeria - *Bachelor of Technology, Computer Science*   **Present**
